

Cover Letter - Programme Coordinator, Action Education

Dear Hiring Manager,

I am applying for the Programme Coordinator role at Action Education. I currently work in Auckland as an Operations & Business Support Coordinator at Mindhive, where I support daily operations, procurement, invoicing-related coordination, and cross-team communication in a fast-moving environment.

I bring direct experience coordinating programmes, events, and community-facing delivery. At Marie International School, I coordinated 10+ cross-campus programmes and events from planning through execution, including large events with 150+ attendees and 20+ staff. I also managed scheduling and workflow coordination for 20+ staff and acted as a primary liaison handling 50+ weekly enquiries from families, partners, and suppliers.

This experience aligns closely with your need for someone who can coordinate delivery across schools and community settings, manage bookings and schedules, and keep records and reporting organised. I have also supported quote tracking, purchase order coordination, and invoice follow-up using Xero and Dext in my current role.

I am especially drawn to your youth-centred kaupapa and the focus on creativity, wellbeing, and belonging. In my previous work at Takapuna Primary School, I supported after-school programme delivery with arts and music activities and helped children settle into a safe and welcoming environment.

I understand your commitment to Te Tiriti o Waitangi and culturally responsive practice is core to this role. While my CV does not include formal Te Tiriti-specific roles, I have worked across diverse multicultural settings throughout my career and I value respectful, inclusive community relationships.

I would welcome the opportunity to contribute strong coordination, warm communication, and reliable delivery to Action Education's programmes and events across Tāmaki Makaurau.

Thank you for your consideration.

Warm regards,

Inna Popova
