SUMMARY

- Operations and business support professional currently supporting a New Zealand AI technology company across service delivery support, procurement, billing administration, facilities, and stakeholder coordination.
- Hands-on with quote to invoice workflows, including quote collection, purchase order preparation, invoice follow-up, and delivery tracking using Xero and Dext.
- Confident coordinating across internal teams, suppliers, contractors, and service providers to keep operational work moving in a technical environment.
- Strong attention to detail in documentation, records, and finance-related administration, with a consistent focus on accuracy and follow-through.
- Proactive about improving internal processes and documentation to reduce friction and create clearer operating rhythms for teams.
- Experienced in fast-growth settings, building warm and reliable working relationships while maintaining structured execution.

WORK EXPERIENCE

Mindhive Limited / Mindhive Global - Operations & Business Support Coordinator

Jan 2025 - Present · contract · AI technology, machine vision, industrial quality systems

New Zealand technology company developing AI-powered machine vision systems for industrial quality assessment, defect detection, and grading.

Highlights

- Provide day-to-day operational and administrative support across office operations, procurement, finance administration, facilities, and internal business support.
- Coordinate purchasing and vendor workflows including supplier communication, quote collection, purchase order preparation, invoice follow-up, and delivery tracking.
- Support billing lifecycle tasks through invoice management, quote tracking, and purchase order coordination using Xero and Dext.
- Liaise with internal teams, external suppliers, contractors, and service providers to resolve operational issues and support smooth service onboarding.
- Support inventory and hardware sourcing activities through stock checks, supplier follow-up, and documentation updates.

- Contribute to process improvements and documentation updates in a fast-moving technology environment.

Tech: Xero, Dext, Microsoft Office, Google Workspace, Jira, Slack, AI-assisted tools
