SUMMARY

- Operations and business support professional currently supporting a fast-moving New Zealand AI technology company across office operations, procurement coordination, finance administration, facilities support, and stakeholder communication.
- Experienced in building structure in scaling and fast-evolving organisations, with a focus on workflow stability, clear communication, and operational continuity.
- Comfortable learning and adopting new tools and systems, including AI-assisted tools to improve communication, documentation, planning, and administrative productivity.
- Strong coordination background across projects, programmes, events, and cross-functional teams in multicultural environments.
- Known for warm, respectful communication and a structured, reliable approach to delivery.

WORK EXPERIENCE

Mindhive Limited / Mindhive Global - Operations & Business Support Coordinator

Jan 2025 - Present · contract · AI technology, machine vision, industrial quality systems

New Zealand technology company developing AI-powered machine vision systems for industrial quality assessment, defect detection, and grading.

Highlights

- Provide day-to-day operational, administrative, and coordination support across office operations, procurement, finance administration, facilities, and internal business support functions.
- Coordinate purchasing activities including supplier communication, quote collection, purchase order preparation, invoice follow-up, and delivery tracking.
- Support procurement and inventory control through hardware sourcing support, stock checks, supplier follow-up, and documentation improvements.
- Liaise with internal teams, external suppliers, contractors, and service providers to support smooth workflows and timely resolution of operational issues.
- Support finance administration through invoice management, purchase order coordination, quote tracking, and use of Xero and Dext.
- Contribute to improving internal systems, documentation, and operational processes in a fast-moving technology environment.

Tech: Google Workspace, Microsoft Office, Slack, Xero, Dext, Jira, AI-assisted tools

Marie International School - Operations & Programme Coordination Lead / Head Administrator

Jan 2021 - Dec 2024 · full-time · International education, early childhood education

International school in Nishinomiya, Japan, experiencing rapid growth across multiple campuses with a threefold increase in enrolment and team size.

Highlights

- Started as an Administrator and progressed to Assistant Teacher for 3-5-year-olds, and then Head Teacher at a newly established campus.
- Coordinated daily operations across 3+ functional areas, supporting consistent service delivery for 100+ students and families during rapid growth.
- Managed scheduling and workflow coordination for 20+ staff members, strengthening alignment and communication across campuses.
- Maintained and streamlined 30+ operational documents, records, and compliance registers, improving process clarity and administrative consistency.
- Acted as primary liaison between leadership, staff, parents, partners, and suppliers, handling 50+ weekly enquiries with structured and timely communication.
- Coordinated 10+ cross-campus programmes, events, and initiatives from planning through execution, including large-scale events involving 150+ attendees and 20+ staff.
- Supported onboarding and integration of new team members during rapid expansion, reinforcing scalable processes and service consistency.

Tech: Instagram, ClassDojo, Microsoft Office

Independent Client Services & Programme Coordination - Self-Employed

Jan 2012 - Dec 2020 · contract · Tourism, hospitality, client services

Demand-driven independent service business operating within a competitive and highly seasonal market in Japan, including tourist guiding across Kyoto and Nara (2015-2020) and bespoke client programme delivery for international B2C and B2B clients.

Highlights

- Designed and delivered customised client programmes for international B2C and B2B clients, managing full service lifecycle coordination.
- Managed seasonal revenue planning, expense tracking, and invoicing, maintaining financial oversight and supplier cost control.
- Coordinated 5-10 external vendor bookings per programme, ensuring seamless multi-provider execution.
- Analysed demand trends and adjusted service offerings based on seasonal patterns and operational capacity.
- Built referral networks and independent marketing channels, generating repeat and word-of-mouth business.

Translation & Content Operations Support - Freelance Translator

Jan 2008 - Dec 2012 · contract · Translation, content operations

Freelance translation and content localisation services for service-based and education-focused organisations.
