SUMMARY

- Operations and business support professional currently supporting a fast-moving New Zealand technology company across office operations, procurement coordination, finance administration, facilities support, and stakeholder communication.
- Experienced in supplier communication, quote comparison, purchase order preparation, invoice follow-up, and delivery tracking, with practical accounts coordination support in Xero and Dext.
- Comfortable providing high-level administrative support through structured documentation, process follow-through, and cross-functional coordination in busy environments.
- Known for warm, respectful communication while maintaining a discreet and professional approach with internal teams, external providers, and stakeholders.
- Brings strong organisational habits in systems, filing, and operational records, with a focus on keeping small teams connected and offices running smoothly.
- Brings practical marketing administration support through advertisements, website and social updates, branded materials, and event coordination.

WORK EXPERIENCE

Mindhive Limited / Mindhive Global - Operations & Business Support Coordinator

Jan 2025 - Present · contract · AI technology, machine vision, industrial quality systems

New Zealand technology company developing AI-powered machine vision systems for industrial quality assessment, defect detection, and grading.

Highlights

- Provide day-to-day support across office operations, procurement, finance administration, facilities, and internal business support functions.
- Coordinate purchasing activities including supplier communication, quote collection, purchase order preparation, invoice follow-up, and delivery tracking.
- Support procurement and inventory control through hardware sourcing support, stock checks, supplier follow-up, and documentation improvements.
- Liaise with internal teams, external suppliers, contractors, and service providers to support smooth workflows and timely resolution of operational issues.
- Support finance administration through invoice management, purchase order coordination, quote tracking, and use of Xero and Dext.

- Contribute to improving internal systems, documentation, and operational processes in a fast-moving technology environment.

Tech: Xero, Dext, Google Workspace, Microsoft Office, Slack, Jira, AI-assisted tools
