

Tanya Poletaeva

Engineering Manager | People Leadership, Technical Direction and Operational Delivery

Auckland, New Zealand | 021 049 0083 | tt.korenev@gmail.com | New Zealand citizen

Professional Summary

- People-centred engineering leader with 20 years across software development, enterprise platforms, operational delivery and team leadership.
- Currently leads 6 engineers at Gentrack, combining people leadership, technical direction, planning and capability development in a complex product environment.
- Builds high-trust teams through clear delegation, coaching, knowledge sharing and practical delivery systems that support sustainable performance.
- Brings hands-on technical credibility in C#.NET, SQL, integrations and enterprise software, together with experience managing budgets, delivery risk and cross-functional priorities.
- Applies new technology pragmatically, including AI-assisted engineering documentation and an evidence-based performance-review workflow that reduced preparation time from at least one working week to one day.

Leadership and Technical Capabilities

- **People leadership:** coaching, mentoring, delegation, onboarding, performance, capability development and team advocacy.
- **Engineering leadership:** technical direction, solution design, engineering standards, code review, estimation and legacy-system analysis.
- **Operational leadership:** planning, prioritisation, work allocation, capacity, delivery risk, go-live and continuous improvement.
- **Commercial delivery:** budgets, scope, timelines, customer discovery and enterprise implementation across New Zealand and Australia.
- **Technology:** C#, .NET, ASP.NET, SQL, T-SQL, JSON, APIs, integrations, cloud ERP, AWS CodeBuild, Jenkins and Azure DevOps.
- **Practical AI adoption:** AI-assisted documentation, legacy analysis and workflow design with constrained Jira evidence retrieval.

Professional Experience

Gentrack — Technical Team Lead

Jul 2025 – present | Auckland

- Leads a team of 6 engineers across people leadership, technical direction, delegation, planning, delivery alignment and capability development.
- Built a high-trust culture with stronger knowledge sharing, smoother processes and spontaneous collaboration.
- Partners with stakeholders on quarterly planning, backlog shaping and prioritisation, translating product needs into practical team direction.
- Led CI/CD modernisation from Jenkins toward AWS-based pipelines, improving build and deployment readiness.
- Designed a capability-uplift programme to strengthen C# adoption across the engineering team.
- Introduced AI-assisted documentation and analysis of legacy solutions to make system knowledge more accessible.
- Designed an AI-assisted performance-review workflow using Amazon Quick on desktop and constrained Jira evidence retrieval, reducing preparation for 6 reviews from at least one working week to one day while personally reviewing and enriching every final review.

First Software — Head of Support / Implementation Manager

Feb 2023 – Jul 2025 | Auckland

- Led 5 support analysts and software developers across onboarding, mentoring, training, work allocation, performance and delivery decisions.
- Owned support and implementation delivery for a cloud ERP platform serving 75+ New Zealand and Australian clients.

- Directed discovery, solution design, configuration, customisation, reporting, data migration, training, go-live and post-go-live support.
- Improved operational consistency through reusable documentation, training material and implementation practices.
- Supported integrations including EFTPOS NZ, Courier Post, NZ Post and Xero.

First Software — Go-Live Manager

Dec 2020 – Feb 2023 | Auckland

- Led ERP go-live programmes from client workshops through configuration, change delivery, training, launch and early-life support.
- Analysed operating needs and workflows, identified product capability and coordinated solution design and delivery.
- Created user guides, solution documentation and training tools for sustainable adoption.
- Improved implementation practices for efficiency, scalability and reliability.

First Software — Senior Consultant

Jul 2019 – Oct 2020 | Auckland

- Combined customer-facing solution design with hands-on C#, ASP.NET, SQL, reporting, JSON and integration work.
- Investigated data and process issues, identified root causes, estimated changes and implemented agreed solutions.

Flintfox International — Team Lead

Jan 2018 – Jun 2019 | Auckland

- Led a development and test pod across work allocation, scope, technical risk, budgets, timelines, coaching, performance and recruitment support.
- Turned complex customer scenarios into technical designs and implementation plans.
- Established coding guidelines, development standards, review practices and technical documentation.
- Delivered Component Switch pricing and more than 5 other projects exceeding 200 hours each on schedule.
- Led the highest-performing team in 2 consecutive performance reviews.

Flintfox International — Senior Software Developer

Jan 2009 – Jan 2018 | Auckland

- Modelled complex pricing and accrual rules across hundreds of real-world scenarios for enterprise Trade and Revenue Management products.
- Designed product logic for Stepped Breaks, Payment Sync, GL Resolve, Free Goods and Price Breaks.
- Used SQL performance analysis to improve data integrity, product behaviour and processing efficiency.
- Supported developers and customer implementations across locations.

RAA Spectekhnika / Bio-Rad-related work — C# .NET Developer

Jan 2006 – Jan 2009 | Moscow

- Developed C#/.NET software for aviation simulator systems and blood and plasma analysis workflows.

Education

- **Bachelor's in Physics and Engineering**, Moscow Engineer-Physics State University, 2008.
- **Certificate in Software Engineering: C# .NET**, Moscow Aviation University, 2006.

Certifications

- Microsoft Certified Technical Specialist: .NET Framework 2.0 Application Development and Windows Applications, 2008.
- Microsoft Dynamics AX Development Introduction, 2016.
- Using Azure for Data Platform Solutions, 2017.
- HDInsight for Solution Architects, 2017.
